CIRCO & DANZA

TECHNICAL DATA SHEET (INDOOR)

Standard red

Floor: flat and even, without sloping. The company has its own linoleum.

Stage size: Round, 7 metres and 4 metres high without obstacles.

Circular proposition, adaptable depending on the theatre stage. The audience can be seated in different ways:

- With stages of 12 X 12 metros it is possible to get all the audience on the stage by placing 200 chairs in a circular way around the dramatic centre. (The chairs must be provided by the organization).
- With stages of less than 12 metros, the show will be carried out with three "fronts", being one of them the stalls and the other two, chairs occupying the remaining space on stage, after having mounted the 7 metres wide, round setting. (The chairs must be provided by the organization).

Sound: XLR stereo audio input on stage

Lighting: The wiring necessary to connect a LED system, (the latter provided by the company).

- Check lighting layout with the company.

People on tour: 2 actors + 1 technician

Setting up: 6 hours

Striking the set: 1 hour

Other requirements:

- Access for a van to the loading and unloading zone of the theatre.
- Dressing rooms with bathroom and warm water.
- Water.
